## Tell Me About The Beny System®

Put simply, The Beny System® is a comprehensive program of customized services developed by David M. Banet & Associates to help you and your employees get the most for your benefits investment. Our highly experienced staff provides a broad range of benefits administration support and assistance, from open enrollment through COBRA administration and everything in between.

### Employer Support

David M. Banet & Associates professionals will work closely with your team to supplement your human resources capabilities and enhance your benefits program. We will track, monitor and review benefits activities, reconcile discrepancies and keep you informed with powerful management reports and system-wide updates. Among the many available services are:

- Open Enrollment Campaigns
- Carrier Contact & Invoice Management
- Payroll Monitoring
- Compliance Assistance & Litigation Firewall
- COBRA Administration
- And Much More

### Employee Resource

Our Benefits Advisors provide an unparalleled level of service and assistance to your employees. Acting as an advocate, information center and benefits resource, these dedicated advisors help develop a clear understanding and a positive perception of your benefits package, while helping your employees address important issues. Through our Benefits Advisors and other staff we offer:

- Toll-Free Benefits Resource Center
- Online Enrollment
- Benefits Education
- Information In Multiple Formats
- Continuity & Single Point of Contact
- And Much More

### Employee Information Management

David M. Banet & Associates has developed a powerful Human Resources Information System (HRIS), which is the platform for The Beny System®. This advanced computer program consolidates all your employee information and generates customized reports, creating a comprehensive data management and decision making tool. In addition to its benefits-related features, our HRIS includes an array of valuable capabilities for other HR functions. For convenience and hassle-free operation, we build your initial database, provide training and deliver ongoing technical assistance and support.
